Note From Heidi

Change and adjusting to a new normal has really been the continuous theme for all of us in 2020. Here at 1st Credentialing, we are no different, but we are also turning that up a notch with some exciting news. After 12 years with our current logo we decided to refresh our brand. With that exercise came the realization that our company name should match our web address, 1stCredentialing.com. After considering logos, website addresses and the ease of understanding what we do in the medical field, we decided to drop "Assistant" and change the name to 1st Credentialing.

Right now, we are in the transition between the two names, so you may see both logos and company names until the beginning of next year. Our new website will also go live in January.

What will not change is our commitment to our clients, our involvement to educate credentialing personnel, and the promise to be a trustworthy partner.

We are the same company with a new look and feel to our brand. We are very proud of how it looks and I hope you like it too!

"1st Credentialing is an extension of your practice and we work closely with each client to ensure accuracy and timeliness for all your credentialing needs. We take pride in our work and we work for YOU!"

Heidi Henderson
 Founder/Principal, 1st Credentialing

Payor Enrollment Mistake #8: Failing to Review Your Provider Type

There is nothing more frustrating than having a payor enrollment application rejected or delayed because one piece of information is missing. It is even more infuriating to have a payor enrollment application returned over and over again because of missing information... [keep reading](#)

Holiday Festive Fun
