- Summer Recipe - Aperol Spritz

### NOTE FROM HEIDI

Welcome to summer and to our new Client Portal!

I appreciate all of our readers who send responses and questions to the information we promote. I love the communication with you and the opportunity to help educate you on credentialing issues.

Today we are sharing the information about our two most recent blog posts and e-blasts, where we talk about what is necessary to start credentialing for a new provider and entity, as well as starting a telemed practice. The most common questions for both scenarios are listed individually on our website, so check them out if you haven't already.

We have some exciting news to share and that is our 1stCred client portal has been launched and is ready for all of our clients to use! The portal is where you can log into our software and see your account with all of your projects. Our goal is to assist the client in accessing their information as well as to easily and securely upload information directly to their Coordinator.

One area of the portal that I would like to point out is the ability to run your own reports. Finding status on your projects has never been easier! This has been an excellent tool for our clients who utilize the portal. It cuts down on the email exchanges and gives you the freedom to easily access the information while eliminating any wait times!

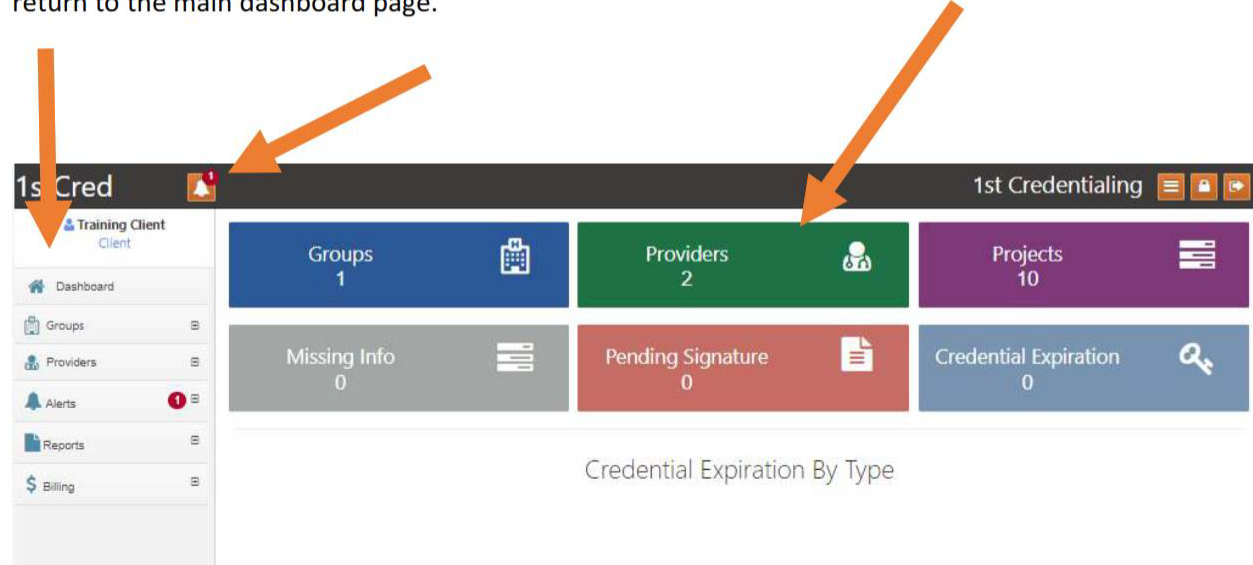

In addition to running your reports, you can see any missing information, upload it directly to our secure software system, and also see what contracts may be pending a signature and resend the emails to the recipient.

Below is a picture of our dashboard on the main page. You can see that the portal is separated by GROUP information (which is your Tax ID) and by PROVIDER information. This grouping allows you to better understand the project delineations. We will be adding more features in the near future to help make this tool even more amazing.

If you would like access to this portal, please email your Sr. Coordinator and they will get you the access you need to login.

### Dashboard – Overview

When you first login, you will arrive at the Dashboard. The menu on the left or the buttons across the top section will help navigate to the page you want to reach. In addition, there is an alert bell at the top which you can access alert information from. You can click "Dashboard" on the menu at anytime to return to the main dashboard page.

Have a safe summer!

Best Regards,

Heidi Henderson  
Founder/Principal, 1st Credentialing
