- PECOS Facelift
- Fall Recipe - Pumpkin Cupcakes

### NOTE FROM HEIDI

Hello!

I hope you are receiving our blogs and eblasts informing you about what is happening in the credentialing world. There have been some important updates that we want you to be aware of, so I will recap it for you here just in case you missed them.

Medicare has a big update for PECOS called PECOS 2.0 and it will be available very soon. This update includes one Medicare application for all states. What a great timesaver for those that practice in more than one state! You can learn more [here](#).

We sent a blog out this summer that talks about the specifics of telehealth credentialing. If you have not seen that information, please watch our video by using this [link](#).

**Our client portal is also up and ready for our clients to log into their account.** Are you using the portal? If not, please request an invitation from your Sr. Coordinator and they will get you set up. Once you are signed in to the portal you can review missing information, see the pending signature requests for contracts and applications, and you will have the ability to run your own status reports. This is a great way for you to be able to assist in the credentialing process and get the answers you need quickly. In addition to the status updates and reporting, you can also upload your provider documents directly into our software system. Try it today! You can find the link below in our latest blog.

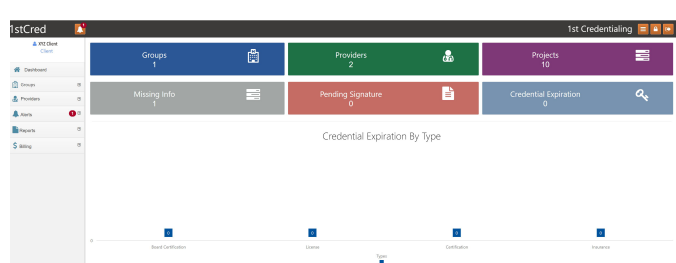

Please let me or your team know if you have any questions about the information provided. We are happy to help!

Best Regards,

Heidi Henderson  
Founder/Principal, 1st Credentialing

### LATEST BLOG - Our Portal is Your Power!

How does 1st Credentialing help?  
Real-time project status access via client portal.  
Read our answers to common credentialing questions in our latest blog [here](#).
